EXPERIENCE

Credit Risk Portfolio Analyst

Komerční banka

📅 November 2013 – Ongoing

📍 Prague, Czech Republic

Working in a small international team of nine people, being responsible for creation of regular reports and ad-hoc analysis for internal decision making purposes for risk, marketing and distribution departments, Czech National Bank as a regulator, external and internal audit. Backtesting scorecard and LGD models and maintenance of its documentation. Working with Oracle, Teradata SQL databases and SAS statistical software on daily basis. Mentoring new and part-time colleagues. Also completed training in SAS macro programming, advanced Excel functions and credit analysis of financial reports.

Online Marketing Assistant

SEVT, a. s.

📅 March 2012 – May 2012

📍 Prague, Czech Republic

Maintained company's internal databases, updated content of web pages. Assisted with migration of databases to new CMS. Provided customer support and participated on company's projects which included administrative work, product presentations and data analysis.

Website Administrator

Retail Info, s.r.o., Deal Info, s.r.o.

📅 April 2011 – Jun 2013

📍 Prague, Czech Republic

Took care of regular every day updates of company's web page content and databases. Part-time job during university studies.

EDUCATION

University of Economics, Prague

Master's degree in Finance

📅 2013 – 2016

Secondary specialisation: **Data engineering** at Faculty of Informatics and Statistics

Title of the master thesis: Analysis of the Factors Affecting Credit Risk in Personal Lending

Finished master degree in study program finance, which provided me knowledge of the problems of financial markets, banking, insurance, national, local budgets and public finance. The study program included basic knowledge of accounting, financial statement analysis and financial management.

Secondary specialization in data engineering provided me introduction to basic data processing methods. The emphasis was also on getting acquainted with current research trends. I studied and got hands on data mining methods while solving practical problems, applied business intelligence and worked with web scraping, language processing and data quality management methods.

University of Economics, Prague

Bachelor's degree in Finance

📅 2010 – 2013

Title of the bachelor thesis: Foreign exchange reserves of China, reasons for holding reserves and adequacy

Finished three-month Work and Travel USA program.
